

Data Competency with DELTA Framework

DATA

How effectively are you transforming your business' raw data into informative, actionable reports and dashboards – or simply exporting it?

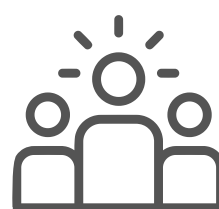

EVALUATION

Do you know what your current data competency level is?

EMPOWERMENT

How do you empower your team to use the power of data?

LEADERSHIP

How do your business data help with improving leadership practices?

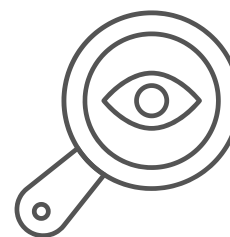

LEAN THINKING

A lean culture is one characterised by collaboration and competency. Where people feel secure utilising and sharing information, and letting data (not hunches) drive decisions.

TRANSPARENCY

How do you and your team are working to improve transparency in the business?

ANALYTICS

How are you encouraging teams to put critical thinking in practice? - succeed it by developing a lean culture.
